Algae Aid

ALGAECIDE

ACTIVE CONSTITUENT:
142.5g/L QUATERNARY AMMONIUM COMPOUND

Algae Aid Algaecide is used to control algae and black spot in swimming and therapeutic pools and air conditioning waters.

Algae Aid Algaecide will control algae and mould growth on surfaces such as tiles, bricks, concrete, fibro, artificial grasses and coatings.

Algae Aid Algaecide is also effective in the control of such growth in situations as per the Directions for Use Table.

SPECIALTY PRODUCTS

DIRECTIONS FOR USE

| SITUATION | PESTS CONTROLLED | RATE | HOW TO APPLY |
|--|------------------|--|--|
| Therapeutic and spa pools | Algae | Initial treatment: 200mL per 10,000 L water Preventative Maintenance Treatment (weekly to monthly): 200mL per 10,000L water | Use in conjunction with chlorine treatment. |
| General use Walls and floors: tiles, concrete and fibro Pathways | Algae and Mould | 30mL per 5L water | DO NOT rinse treated surfaces. |
| Golf courses and bowling greens, bunkers and sports turf areas | | 1L-2L per 100L water depending on level of soiling. | Use after precleaning treatment such as Cyndan Farm Mate or Power Kleen. |
| | | 1L per 100L water | Spray onto affected area and allow to dry. |

DIRECTIONS FOR USE IN SWIMMING POOLS

| POOL CAPACITY | SUMMER DOSAGES (mL) | | MONTHLY WINTER DOSE OR HEAVY ALGAE CONTROL (mL) |
|---------------|---------------------|-------------------|---|
| | INITIAL | WEEKLY to MONTHLY | |
| 10,000L | 250 | 170 | 600 |

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION**GENERAL INSTRUCTIONS**

Swimming Pools, Spa and Therapeutic Pools: Algae Aid Algacide must be used with a registered sanitiser when the pool is used for bathing. To prevent the water appearing hazey the product should NOT be added for at least 48 hours after super chlorinating the pool. However, during normal dosing this time delay is not required. Use product monthly or if under high bathing load use weekly.

For spa baths, use in conjunction with a cleaning product (Calculate the volume of a pool by multiplying the length x width x depth of pool in metres x 1000 to give the volume in litres).

WINTER MAINTENANCE

If pool is sanitised using chlorine, treat pool every 3-4 weeks. After application of the product filter water for 12 hours to ensure mixing, brush pool walls thoroughly and vacuum. Only use high dosage rates when pool is not in use e.g. heavy algae and winter dose rates.

For general Algae and Mould control: Clean the surface with an appropriate cleaner such as Cyndan "Cleans All" or Cyndan "Concrete Wash" (see your Indigo Representative). Apply the solution of Algae Aid Algacide to the cleaned surface and allow to dry. This will stop spore growth and maintain a clean, presentable surface. Cyndan "Masonry Sealer" may be applicable in sealing the clean surface. See your Indigo Representative for more information.

For grasses and vegetation: Algae Aid Algacide is ideal for golf course and bowling greens, bunkers and sports turf areas.

For Pigeries, Hatcheries and Dairies: Use Algae Aid Algacide as a sanitiser after precleaning with a cleaner such as Cyndan Farm Mate or Power Kleen. Refer to General Use section of Table for application rates.

For establishments requiring the use of the product under the Commonwealth Export Control Act rinse product contacting surfaces with potable water after use.

Caution: Not to be used as a food container.

STORAGE AND DISPOSAL

Store in the closed, original container in a cool, dry place out of reach of children. DO NOT store in direct sunlight. Triple rinse containers before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on-site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available bury the empty packaging 500mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. DO NOT burn empty containers or product.

SAFETY DIRECTIONS

Will irritate the eyes, nose, throat and skin. Avoid contact with eyes and skin. DO NOT inhale vapour.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 13 11 26. If skin contact occurs, remove contaminated clothing and wash skin thoroughly. If swallowed, do NOT induce vomiting. If, in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.

SAFETY DATA SHEET

For more information refer to the Safety Data Sheet (SDS) which can be obtained from the supplier.

CONDITIONS OF SALE: The use of **Algae Aid Algacide** being beyond the control of the manufacturer no warranty expressed or implied is given by Indigo Specialty Products Pty Ltd regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not and Indigo Specialty Products Pty Ltd accepts no responsibility for any consequence whatsoever resulting from the use of this product.

Additional statements required by Globally Harmonised System of Classification and Labelling of Chemicals (GHS) and Safe Work Australia: Causes severe skin burns and eye damage.
